About App..

My app is created to keep you entertained when you are bored. I have created three games. You need to speak in order to choose the game you would like to play. The three games are:-

- Ping Pong Game
- Maze Game
- Quiz Game

How do I use the App?

To use my app you would need to speak to play a game. After that, your game would activate and you can play.

Option Name

(This will be repeated for each option of the App)

This app uses listening recognition so you need to make sure that you speak very clearly. You also need to speak the game that you want to play in order to activate and play.
